# 1 Flat Skate

## 2 Extension Skate

### 3 Flexion Skate

SYMBOL	TITLE	DESCRIPTION
	Manufacturer	The medical device manufacturer
	Catalogue number	The manufacturer's catalogue number
	Refer to instruction manual	The instruction manual booklet must be read
	Batch Code	The number or lot number
	Non-ionising electro magnetic radiation	A bluetooth device emitting low levels of non-ionising electromagnetic radiation
	Serial number	The manufacturer's serial number
	Do not use if packaging is damaged	The medical device must not be used if the package has been damaged or opened
	Keep dry	The transport package shall be kept away from rain and in dry conditions
	Temperature limits	The maximum and minimum temperature limits at which the device shall be stored
	Date of manufacturer	The manufacturer's catalogue number
	Caution	Caution is necessary when operating the device
	Direct Current	Equipment is suitable for direct current only
	Maximum Altitude	The Sensor is intended to be usable upto the maximum altitude 3000m
	Humidity Limitation	The acceptable upper & lower limits of relative humidity for transport & storage
IP22	IP22	Ingress Protection
	Atmospheric Pressure Limitations	To indicate the upper & lower limits of atmospheric for transport & storage
	Type B applied part	A type B applied part complying with IEC 60601-1
	Read Operator's Manual	Manual containing instructions for operating the device

## SENSOR TECHNICAL INFORMATION

### ENVIRONMENTAL REQUIREMENTS

Maximum altitude for operation, storage & transport: 3000 metres

### OPERATION & STORAGE CONDITION

Operation Temperature: 10°C - 30°C

Storage Temperature: 10°C - 35°C

Humidity Range: 10% r.h to 85% r.h,

Non condensing

### OPERATION, STORAGE & TRANSPORT

#### ATMOSPHERIC PRESSURE LIMITATION

70kPa to 106kPa

#### TRANSPORT CONDITION

Temperature: 0 - 45°C

Humidity Range: 10% r.h to 85% r.h,

Non condensing

### ELECTRICAL TECHNICAL INFORMATION

Rating: Nominal Capacity 950mAh

Nominal Voltage 3.7V

### DISPOSAL OF WASTE

When the device reaches its end of life, contact your local reseller or local authorities for the correct method of disposal.

### SENSOR INFORMATION

Maximum Battery Recharge Cycles: 500

Insure sensor is sufficiently charged before the start of the exercise

### SENSOR SIZE & WEIGHT

Size: 45mm W x 80mm L x 13mm D  
weight: 80 grams

IP Rating: IP22

User Manual Part Number:

CRO-PM-06539-v07

## WARNINGS

- Never stand while the MAXM Skate is attached to your foot.
- Adjust the MAXM Skate length with care to avoid pinching your fingers or hand.
- Stop and seek advice if you are experiencing any increase in pain, particularly if not settling.
- Do not use or wear the sensor when charging.
- The device is not intended to be worn in wet environments as it is NOT waterproof.
- Use only an IEC 60601 compliant power adapter to charge the Sensor

## LIMITATIONS OF USE

- Do not use the MAXM Skate on broken skin.
- The MAXM Skate can withstand a maximum weight of 120 kg.
- Only use the MAXM Skate as described in this user manual.
- Consult your health professional if you have any questions.

## CLEANING

- Clean the MAXM Skate with standard household detergents (non bleach).
- Clean the MAXM strap handles with standard household detergents (non bleach).
- Clean the Sensor with a dry cloth.

(Contact your healthcare professional or MAXM SKATE representative for any issues.)
